

FIREWALL AS A SERVICE

Firewall as a Service (FWaaS) is your all inclusive Vocus Cloud Internet, Hosted Firewall and Cloud Gateway Solution.

OUR SOLUTION FOR YOU

Vocus FWaaS is offered in conjunction with Vocus Cloud Internet and is dimensioned to match your selected Internet Speed and firewall option.

FWaaS is offered on a subscription basis and provides customers a choice of:

- Firewall offerings (Standard or Advanced)
- Management options (Standard Support or Managed Service Support)
- Provisioning options (Base or Custom)
- High Availability (HA) upgrade option

Shield your network from outside threats

Simple to set up, and a simple access portal

Ensure your business stays online 24/7

Highly cost-effective with simple monthly subscription and no capex

Leverage our expertise, no need to hire and train security experts

Premium performance with Enterprise Standard protection

WHO IS IT FOR?

Geared for businesses which require secure access and monitoring of all inbound and outbound traffic into their network.

Medium Business

100 - 500 Staff

Large Business

500+ Staff

FEATURES AND BENEFITS

COMPREHENSIVE PROTECTION
