Cloud Q	\$9.95	100 Number Range	\$33.00

Mobile Call Pack usage aggregated over all SIP channels on the account. Unused calls expire monthly.

THE FINE PRINT: 1. The Service - Vocus Smart SIP (SIP) services are Internet telephony services that require at least 100/100 Kbps per simultaneous call and are subject to a service qualification. The Vocus' Standard Terms and Conditions and Commander by Vocus Acceptable Use Policies apply, see vocus.com.au/legal/commander or contact Customer Support. Calls not listed (such as international, premium and directory assistance calls) are charged in addition to monthly fee at applicable rates, see website for details. 2. Minimum Total Costs - Total Min costs = (Contract length x Monthly Fee) + set up fee + any applicable equipment purchased. Delivery costs may apply for some equipment. Smart SIP (min 2 channels): (24 months X \$25 X 2 channel minimum + \$0 set up fee) \$1200 on 24 months. 3. Service limitations - Service availability and quality may differ from a standard telephone service and is subject to network/Internet congestion. SIP is not appropriate for premises where a user has a disability, illness or other condition which requires an uninterrupted phone line with access to 000 emergency services. Priority Assistance is not available on this service. 4. Transfer - When porting phone numbers to SIP, please be aware that you may be charged a fee by your existing provider. 5. Installation - You are responsible for the physical installation of all handsets, associated cabling, configuration your network and any routers and/or switches required to allow the Vocus SIP service to work. Vocus has an install service available at extra cost, ask us about Valet Install! 5. Termination - Early Termination Fees (ETF) apply if you cancel during a minimum term. The ETF is pro-rated over the remaining months of your term (\$300/Channel) and you must pay any outstanding monthly payments for any relevant equipment not yet paid in full. 6. Relocation - Should you relocate to a different geographic zone than that of your number (e.g. you move to an 02 area but have an 03 number), Vocus can supply Vocus SIP Services to that area, however calls will be charged at the applicable geographic area rates (so a "local" call might be an STD call) and you may not be able to port the numbers to another carriage service provider. If you relocate, Vocus may not be able to supply the SIP Service at your new location and ETFs may apply. Not available for resale or high volume telemarketing purposes. Information and pricing correct at time of printing.
